The more things change...
a new home for Reagan
a new home for students
hostages return home

... the more they stay the same.

We Always
Performed. Both
on . . .

... and Off Stage.

Sometimes we just took our time.

Although We Worked Hard . . .

We Still Found Time to Play.

Three's company . . .

four's a crowd.
But we found friendships
didn't depend on numbers.

If you smile at me you know I will understand because that is something everybody does in the same language. Well, I can see by your coat, my friend, you're from the other side. There is just one thing I have got to know. Can you please tell me the one? You must try some of my purple berries I've been eating them for six or seven weeks now. Haven't got sick one. Probably keep us both alive. Wooden ships on the water very free and easy, easy the way it's supposed to be. Silver people on the shore line leave us be very free and easy. Sail away where the morning sun goes high. Sail away where the wind blows sweet, young birds fly. Take a sister by the hand, lead her far from this barren land. Horror grips us as we watch you die. All we can do is echo your anguished cry, stare as all your human feelings die. We all leavin', you don't need us, go and take a sister by her hand, lead her from this foreign land, somewhere where we might laugh again. We all leavin', you don't need us. Sailing ships on the water very free and easy, you know the way it's supposed to be. Silver people on the shore line, leave us be very free and gone. No, no, no; ride the music. Come ride the music. Who will ride the music?

Kantner, Crosby, Stills

I am riding.

Tune me into the wild side of life, I'm an innocent young child sharp as a knife, Take me to the garrets where the artists have died,

Show me the court rooms where the judges have lied.

Let me drink deeply from the water and the wine,
Light coloured candles in dark dreary mines,
Look in the mirror and stare at myself,
And wonder if that's really me on the shelf.
And each day I learn just a little bit more,
I don't know why but I do know what for,
If we're all going somewhere let's get
there soon,

This song's got no title just words and a tune.

Take me down alleys where the murders are done In a vast high powered rocket to the core of the sun,

Want to read books in the studies of men, Born on the breeze and die in the wind.

- Elton John

- G.P.

The holy passion of Friendship is of so sweet and steady and loyal and enduring a nature that it will last through a whole lifetime, if not asked to lend money.

Pudd'nhead Wilson's Calendar

Don't look for flaws as you go through life; And even when you find them, It is wise and kind to be somewhat blind, And look for the virtue behind them; For the cloudiest night has a tint of light Somewhere in its shadows hiding, It is better by far to look for a star, Than the spots on the sun abiding. The world will never adjust itself To suit your whims to the letter; Some things go wrong your whole life long And the sooner you know it the better. It is folly to fight with the infinite, And go under at last in the wrestle; The wiser man shapes into God's plan, As water shapes into a vessel.

FRIENDS WHO SAIL TOGETHER

There are friends who pass like ships in the night,
Who meet for a moment, then sail out of sight,
With hever a backwards glance of regret -

With never a backwards glance of regret Friends we know briefly, then quickly forget...
There are other friends who sail together
Through quiet waters and stormy weather,
Helping each other through joy and
through strife -

And they are the kind who give meaning to life!

Two reads diverged in a word, am I-I took the one less traveled by, And that has made all the difference. Robert Frost

Now we strike a steady gait, walking toward the future, letting past and present wait, we push on in the sun, Now Hark, something bids us pause . . . Down the valley, a church, a funeral going on . . . up the valley, a roadhouse dancing going on. But we keep on walking, 'tis not yet noonday, the road still calls us onward, today we do not choose to die or to dance — but to live and walk.

"Once there lived a village of creatures along the bottom of a great crystal river. The current of the river swept silently over them all — young and old, rich and poor, good and evil, the current going its own way, knowing only its own crystal self.

Each creature in its own manner clung tightly to the twigs and rocks of the river bottom, for clinging was their way of life, and resisting the current what each had learned from birth.

But one creature said at last 'I am tired of clinging. Though I cannot see it with my eyes, I trust that the current knows where it is going. I shall let go, and let it take me where it will. Clinging, I shall die of boredom!'

The other creatures laughed and said 'Fool! Let go, and that current you worship will throw you tumbled and smashed across the rocks, and you will die quicker than boredom!'

But the one heeded them not, and taking a breath did let go, and at once was tumbled and smashed by the current across the rocks.

Yet in time, as the creature refused to cling again, the current lifted him free from the bottom, and he was bruised and hurt no more.

And the creatures downstream, to whom he was a stranger, cried 'See a miracle! A creature like ourselves, yet he flies! See the Messiah, come to save us all!' And the one carried in the current said, 'I am no more Messiah than you. The river delights to lift us free, if only we dare let go. Our true work is this voyage, this adventure.'

But they cried the more, 'Savior!' all the while clinging to the rocks, and when they looked again he was gone, and they were left alone . . . "

Now begins the fun

Our best to all and fond farewell

We'll cherish the memories very well.

Lunches packed, car pools made,

Friday night parties after a long hard day.

Snow lists, Root Road, and "Prep Rallies" too,

Soccer, basketball, golf, and other things we do.

Center Ridge Road and the long distance calls,

The breeze off the turnpike, drama — what a ball.

We'll miss it all.

The dedication of this year's yearbook staff is commendable. The hours spent in the darkroom, at the typewriter, on the phone, and behind the camera were countless, and appreciated greatly. The yearbook staff this year was a joy to work with. Their talents and fresh ideas were never-ending. They all deserve a thanks and congratulations. Enjoy this yearbook. Read the copy — it's good. Look at the pictures — they're clear. Ignore the mistakes — we're all human. Be proud of this yearbook — you are all a part of it.
